	<p>Read the extract below and answer the following questions.</p> <p>We stumbled slowly along in the darkness, with the black loom of the craggy hills around us, and the yellow speck of light burning steadily in front. There is nothing so deceptive as the distance of a light upon a pitch-dark night, and sometimes the glimmer seemed to be far away upon the horizon and sometimes it might have been within a few yards of us. But at last we could see whence it came, and then we knew that we were indeed very close. A guttering candle was stuck in a crevice of the rocks which flanked it on each side so as to keep the wind from it and also to prevent it from being visible, save in the direction of Baskerville Hall. A boulder of granite concealed our approach, and crouching behind it we gazed over it at the signal light. It was strange to see this single candle burning there in the middle of the moor, with no sign of life near it—just the one straight yellow flame and the gleam of the rock on each side of it.</p>
18.	<p>Which word is a synonym for the word ‘flanked’? (Line 5)</p> <p>A Adjacent B Surrounded C Signalled D Illuminated E Bombarded</p>
19.	<p>Which word describes the surroundings in the passage?</p> <p>A A cave B A moor C Baskerville Hall D A garden E A street</p>
20.	<p>Why is the person with the candle located in a crevice of the rocks?</p> <p>A So that they can be seen clearly B So that they can meet others there C Because it is near their home D So that they are hidden from sight E Because it’s near the boulder</p>
